01 / UNDERSTAND THE ROUTES

Start with the employment relationship.

Four visual groups help you find the right starting point.

02 / COMPARE THE FIT

The benefits.

The trade-offs.

Choose for your hiring situation, then verify the country and role.

ROUTE	BENEFIT	CONSIDER
P3MI You need candidates and support with the Indonesian placement process.	A local partner for recruitment, worker documents and departure preparation.	Service costs and coordination dependencies. Verify scope and authority.
UKPS Your Indonesian company is sending its own staff.	The sending company has a defined responsibility for its workers.	Only for qualifying own-company assignments. The Indonesian sending company needs its own placement permit.
Individual The worker has found your company directly.	A direct relationship without a placement intermediary.	Registration and contract checks still apply. Article 63 assigns employment risks to the worker; employer duties continue.

Government programmes are available only within their eligible arrangements.

Sources [1-4]. Individual workers must report to the labour agency and Indonesian mission; employer registration/verification is tied to employment-contract endorsement. Benefits are practical interpretation.

03 / WHY P3MI?

Build your team. With support in Indonesia.

For employers who need candidate recruitment and a local counterpart to manage Indonesian placement requirements.

04 / WHY DAYA TALENTA GLOBAL?

Daya Talenta Global is a P3MI.

Part of Dayalima Group, DTG connects Indonesian talent with overseas employers. The group's journey in people and organisation development began in 1998.

A MUTUALLY ACCEPTED OFFER

Sources [3], Articles 25 and 31; [4], Articles 16-19. SIP2MI = Surat Izin Perekrutan Pekerja Migran Indonesia. An active P3MI listing alone does not authorise a specific recruitment.

From accepted offer to the first working day.

Readiness comes from completed requirements and issued approvals.

04

Prepare and obtain permits

Complete the worker-P3MI placement agreement, health and psychological checks, social security, employment contract and required visa/entry approvals.

BOTH COUNTRIES' REQUIREMENTS

05
